PROFILE

I am Buddhini Harshika, **fourth-year undergraduate student at SLIIT**, Faculty of Computing, with a strong academic foundation and practical exposure in the field of Information Technology. I am seeking an **internship opportunity** in **Quality Assurance, Project Management** or **Frontend developer**, where I can apply my skills, gain hands-on experience, and contribute effectively to organizational goals while enhancing my professional growth.

EDUCATION

**Mahinda Rajapaksa Collage,
Matara** (2013 - 2022)

- Advanced Level in Engineering Technology Stream.

**Sri Lanka Institute of Information
Technology (SLIIT)** (2022 - Present)

- BSc (Hons) in Information Technology specializing in IT.

WORK EXPERIENCE

Quality Assurance Intern
Bank of Ceylon, Head Office (2025 - 2026)

- Performed manual testing for flex internet banking web and mobile application.
- Designed and executed test cases based on UI/UUX and SRS documents.
- Logged, tracked and managed bugs through Redmine.
- Performed UAT and regression testing.
- Gained hands-on-experience in SLDC process.

SKILLS

- Project Management
- Teamwork
- Time Management
- Leadership
- Effective Communication

ACADEMIC PROJECTS

Tourist Transport System

Mernstack Project

- Introducing a booking transport website for tours who are travelling in Sri Lanka. Developing website using **HTML, CSS, JavaScript**, and the **MERN stack** ensures a modern and user-friendly platform with seamless front-end and back-end integration for browsing, selecting, booking and customizing packages according to the user's choices.

Online Food Ordering System

Mernstack Project

- Developing a food ordering website using **HTML, CSS, JavaScript**, and the **MERN stack** ensures a modern and user-friendly platform with seamless front-end and back-end integration for browsing, selecting, and ordering food and beverages.

Online Bookstore

Web application

- Developing a web application for online books buying and reading using **HTML, CSS**, and **JavaScript** ensures a seamless, user-friendly experience with features for browsing, purchasing, and reading books conveniently and accessibly.

Medicare

Mobile Application

- Developing a productivity app for the medical field using **Kotlin** and **XML** in **Android Studio** will streamline daily tasks and enhance efficiency for medical professionals. The app will include features such as patient management, appointment scheduling, task reminders, and secure data handling.

Routing Craft

Mobile Application

- Developing an interactive mobile application to manage the busy lifestyles of users using **Kotlin** and **XML** in **Android Studio**. This app will incorporate key features, including a **task list**, a **timer**, and a **reminder system with notifications**, to help users organize and optimize their daily routines.
