PROFILE

Motivated and detail-oriented undergraduate in BSc (Hons) Computing Science in Web & Mobile Application Development at ESOFT Metro Campus, awarded by Kingston University. Passionate about building modern web and mobile applications with clean UI/UX, responsive design, and practical problem-solving skills. Interested in frontend development, mobile app development, and creating user-focused digital experiences. A fast learner with strong creativity, teamwork, and adaptability, seeking opportunities to grow as a software developer and contribute to real-world projects.

WORK EXPERIENCE

Orix Marketing | Sri Lanka

2025–2026

Web & Mobile Application developer Intern

- Developed responsive web and mobile application interfaces using modern frontend technologies and mobile development frameworks.
- Collaborated with team members to implement UI/UX designs, fix bugs, and improve application performance and usability.
- Assisted in API integration, testing, and maintaining clean, scalable code for real-world software projects.

Future Developer | Sri Lanka

2026– present

Freelance Web & Mobile Application Developer

- Designed and developed responsive web and mobile application projects for clients and personal brands.
- Created modern UI/UX-focused interfaces with attention to performance, usability, and mobile responsiveness.
- Worked on frontend development, debugging, customization, and deployment of web applications.
